Mike,

Following our discussions last week and based on the comments provided by CDM Smith, CFAC and Roux have revised the SAP Modification forms for the asbestos landfill surface soil sampling (MOD#10) and the slug testing (MOD#11). Attached to this email you will find the following items:

- Revised Phase I SAP Mod #10 and associated attachments (Sample location map, Roux SOP, and Lab CARB 435 SOP)
- Revised Phase I SAP Mod #11 and associated attachments (Pneumatic Slug Testing SOP, Mechanical Slug Testing SOP, and Slug Testing Analytical SOP)
- Response to CDM Comments on Mods #10 and #11

Please let us know if you need any additional information or have any questions. If you agree with the proposed changes, please provide your concurrence on the modification requests. As noted previously, we plan to begin the slug testing about July 10th.
